

## **Surgical Technology**

Prior to enrolling in any program at Dyersburg State Community College, prospective students living and/or working outside of Tennessee should confirm with the appropriate licensing or certifying agency whether successful completion of the program will meet the credentialing requirement of the state in which they intend to see employment. Students should carefully review the specific academic requirements for their chosen program, as well as any prequalification requirements for licensure. Please be advised that state laws, regulations and policies may change at any time and these changes could impact the program's ability to meet educational requirements for licensure or certification.

### **Professional Licensure Determination by State**

| <b>State</b>  | <b>Determination</b>   |
|---------------|--|
| Alabama       | <b>Meets</b>   |
| Alaska        | <b>Meets</b>   |
